EASY-PEEL ADVANTAGES

EASY-PEEL, the latex impregnated stock especially developed for magnetic tape reels and other computer hardware. Labels stay put on spinning reels, but come off cleanly in one piece without tearing, when re-labeling is required. The unique combination of paper and adhesive assures easy removal and minimum residue. Pinfeed labels can be filled in on printer; non-pinfeed style are in sheets of 6 to permit on-premises imprinting by office duplicator (see illustration at left).

EASY-PEEL meets the specialized requirements of every kind of magnetic storage: tape reels, disc packs, and all other units whether plastic or metal. Far surpasses ordinary "removable" adhesive.

LAPEL-STIK LABEL

FOR
PERSONAL
IDENTIFICATION
AT MEETINGS,
CONVENTIONS.

This rayon satin material lends itself to several different uses. It can provide personal or company identification at conventions, meetings, political gatherings (we call it Lapel-Stik when used this way).

Also employed for product identification, such as wires or cables demanding great tensile strength.

In either case these cloth labels accept typing from Data Processing printer, regular or jumbo typewriter, felt marker, crayon, pencil, ball-pen. Soft texture conforms to lapel or garment, clings with non-injurious adhesive to all fabrics, or can wrap around wire and hold tightly to itself. Can be imprinted in one or more colors.

Similar custom-made labels can be furnished in other sizes, pinfeed or in strips for typing or hand-writing. Also available in white or colored paper stocks, and in brilliant Day-Glo.

Net Label Size: $3\frac{1}{4}" \times 2\frac{1}{16}"$

Carrier Size: $4" \times 2\frac{1}{2}"$
